Dear Governor:

I am writing to voice my extreme displeasure over your signature of HB552 INFRASTRUCTURE DEVELOPMENT ACT. As an owner of property in New Mexico I feel betrayed and swindled. The bill that you signed into law, over very serious objections and concerns from within your own administration, is little more than an abandonment of your responsibilities to the individual real property owners of New Mexico and appears to be a sell out to big money development. With the present investigations tainting you with “pay to play” allegations, your action in signing this bill only serves to give the appearance of credence to allegations of dirty politics and further allegations of payoffs, political trades, and dirty deals for your benefit after you leave office.

This appearance of blatant and obvious catering to big money developers has angered me, and angers everyone with whom I speak about this apparent sell out. I demand that you call a special session to pass legislation to override the obscenity of a law. You are directly responsible for the abuses that will be visited upon the real property owners of New Mexico in the form of confiscatory taxes, depressed property values and a backlash against real property purchase in New Mexico.

Do the right thing. Stand up to the special interests and start the process to repeal the law.

Yours truly,

---

Dear Mayor Swisstack:

I am writing to you to express my extreme displeasure over your support of HB552, the INFRASTRUCTURE DEVELOPMENT ACT. You, as mayor, are directly responsible for the support offered by the City of Rio Rancho in the passage of HB552, INFRASTRUCTURE DEVELOPMENT ACT.

HB552 is yet another example of the City of Rio Rancho selling out to big money developers at the expense of its citizens and real property owners. First, you and the City of Rio Rancho tried to cram down infrastructure development via your pet SAD Ordinances. It was only after you saw the righteous indignation of the real property owners of Rio Rancho that you did an about face and played to the political wind. Given the public outcry over that attempt at over reaching and unjust taxation you would think that you would have learned your lesson. Apparently you have not.

HB552 is little more than a back door attempt to shift to the taxpayer the responsibility of infrastructure development which has so often been abandoned by the City of Rio Rancho in its repeated prostitution of itself to developers. Allowing developers to side step infrastructure development at the expense of taxpayers for the sake of quick development is not only short sighted but plain stupid! Enough is enough, as a taxpayer I demand that you publicly support a resolution in the City Council to not implement the provisions of HB552. This law can only result in excessive taxation for infrastructure development which is more properly the responsibility of the City as a whole.

To be perfectly clear, I, and my fellow taxpayers will view your political future in New Mexico to be directly dependent upon your action to support a repeal of this legislation at the state level and to suspend implementation of use of HB552 within the City of Rio Rancho.

Yours truly,

---
